Mr. Darron Richardson:

We have been extremely satisfied with the level of professionalism and quality service that has been afforded us as a result of the telecommunications audit and bill review performed by Discovery and Recovery Consulting, Inc. Discovery was not only able to help me fulfill my E-rate requirements based on qualifying services from the service providers, they also helped provide me with a detailed inventory of my services and helped me understand the services I was receiving from my suppliers. In addition, they helped resolve technical issues related to our wireless services and have saved us several hundred thousand dollars to date. This has been a very worthwhile, advantageous endeavor. We have been so satisfied with their service that we've even contracted them to perform help desk services for us on a go forward basis.

Best regards,
