Discovery Consulting  
Amy O'Dair

I will be the first one to tell you I was unsure of the successful savings that would be achieved on our telecommunication cost. It has been very substantial to this point we have actually found annual savings in the thousands of dollars. And I am sure we would have never known how or been aware of these opportunities to save on our mobile and office communications. I have been nothing but impressed by all aspects of our endeavor with Discovery Consulting. We would recommend them with and say what can it hurt to let them try, that was my thoughts and look how it has turned out.
