To Whom It May Concern:

We at the United States Golf Academy would like to express our appreciation for the efforts and results of our relationship with Discovery Consulting. The result Discovery has achieved on our behalf has been simply amazing.

We engaged with Discovery Consulting to review our telecommunications expenses. We are extremely pleased with the results. Discovery was able to show us how we could further reduce our telecommunications spend, even though we believed that we had achieved the best possible pricing with our current service providers. To date Discovery has reduced our monthly expenses by nearly 50%, while continuing and strengthening our relationship with our service provider. Discovery was able to identify errors while performing their historical audit as well. These credits have proved to be quite significant, and would have been lost revenue without there assistance.

At every step Discovery's employees acted in a professional manner. Discovery's communication with us was another plus. I was able to stay in the loop as to Discovery's interaction with our vendors, and my time investment throughout the project was minimal.

This experience was far better than any other firm of its type. I would recommend Discovery's services to anyone, and continue to tell our business partners about there superior service.

Sincerely,

Dave Lewallen
Director of Marketing

Dedicated to the fundamentals, etiquette, sportsmanship and integrity of the game of golf.
